PERSONAL PROFILE:

I am a detail-oriented Front-End Web Developer with experience collaborating with small, and large teams. I love to build responsive, accessible, and clean code. Creating is my passion, which is why I am so excited to use my web developing skills to create amazing things for all to enjoy.

WORK EXPERIENCE:

NEW BUSINESS MANAGER

John Hancock | Oct 2015 - Oct 2018

-Worked in a collaborative team to provide brokerages with support in processing life insurance policies to their clients
-Foster positive business relationships while working in fast-paced environments and meeting strict time deadlines
-Training, mentoring, and managing team of 6 to surpass processing and closing targets

TOTAL LOSS ACCOUNT MANAGER

Canadian Direct Insurance | July 2013-May 2015

Fast paced, file ownership setting; required strong organizational skills, and attention to detail
-Break down complex tasks in order to ensure positive client experience
-Selected by peers as Representative for Staff Advisory Committee

FEATURED PROJECTS

Reel Good Films | Javascript

A JavaScript based website that allows users to search for movies based on keyword, or genre, or year. It uses an API call to pull the data from a database and displays its findings on the webpage. It is accessible and fully responsive.

Page Turners | React & Firebase

A React based website that allows the user to search for books by genre, title, author, and allows them to compile a reading list.
